Bioriginal Launches the Bioriginal Group of Companies, Uniting Global Expertise to Deliver Integrated Nutritional Solutions

New website showcases six companies serving the food, nutraceutical, and animal nutrition industries worldwide.

November 13, 2025 – SASKATOON, Canada – Bioriginal Food & Science Corp. (“Bioriginal”), a wholly owned subsidiary of Cooke Inc. and global leader in the food and nutraceutical industries, today announced the official launch of the Bioriginal Group of Companies, marking a major milestone in the company’s evolution into a fully integrated global organization. The new group unites innovation, expertise, and supply chain capabilities across continents, enabling Bioriginal to deliver greater value and efficiency to partners at every stage of product development.

The Bioriginal Group of Companies combines specialized expertise across the food, nutraceutical, and animal nutrition industries. Together, these companies provide end-to-end nutritional solutions—from ingredient sourcing and formulation to processing, product development, and finished goods manufacturing.

“The Bioriginal Group of Companies represents the culmination of our vision to create a fully integrated global network that fuels health and wellness from seed and sea to shelf,” said Shannon Sears, President and CEO of Bioriginal. “By combining the unique strengths of each company, we can deliver innovative ingredients, reliable supply, and turnkey nutritional solutions with greater efficiency, value, and impact for our partners worldwide.”

To showcase the breadth of the group’s capabilities, Bioriginal has launched the Bioriginal Group of Companies website. The site serves as a central hub where partners can explore the network’s global operations, understand the distinct expertise of each company, and see how the integrated supply chain delivers innovation and value across human and animal nutrition markets.

The Bioriginal Group of Companies includes:

- **Bioriginal** – Global supplier of nutritional ingredients and turnkey solutions for food, nutraceutical, and animal nutrition applications, with operations across Bioriginal North America (Canada), Bioriginal EMEA (Netherlands), and Bioriginal Asia (Japan).
- **Cyvex Nutrition** – Based in the USA, Cyvex specializes in sustainably sourced, condition-specific ingredients for dietary supplements, food and beverage, and animal nutrition products.
- **Kroppenstedter Ölmühle** – Located in Germany, this century-old company processes premium oils, flours, and press cakes for food, cosmetic, pharmaceutical, and renewable applications.
- **POS Biosciences** – Based in Canada, POS is a food-tech innovator specializing in high-value oil and protein extraction, offering R&D, process development, manufacturing, and analytical services.
- **Softgel Co.** – Located in the USA, Softgel Co. is a full-service manufacturer providing formulation, encapsulation, and packaging capabilities.

- **The Fatory** – Based in the Netherlands, The Fatory is a leading European private label manufacturer for the pet nutrition industry, offering omega food toppers, sheep fat treats, and tailored formulations with full turnkey support.

Together, these companies bring decades of expertise to deliver innovative nutritional solutions for human health, functional food, and animal nutrition markets. The Bioriginal Group of Companies reflects the company's commitment to fueling global health, empowering partners to create trusted, nutritious products, and reinforcing Bioriginal as a trusted global partner delivering innovative ingredients and turnkey solutions that support long-term growth and healthier lives worldwide.
